

FOREST INSPIRED

Hawai'i's forests provide us with water, wood, refuge, and a home for our unique native species. How do our forests inspire you? Create a video about any forest topic in Hawai'i, such as:

- The value of outdoor recreation and access to natural areas
- Healthy forests & drinking water
- Our native plants & animals
- How you connect with our forests
- How forest products sustain & support us
- How to take action against forest threats like rapid 'ōhi'a death, wildfires, or invasive species.

In planning your video, feel free to explore dlnr.hawaii.gov/dofaw for information. All entries must be uploaded to 'Ōlelo's Award Force contest site by 'Ōlelo's deadline.
